Subject: Fwd: Decision on NMED-LL16198D

Mike-

Here's the acceptance letter you'd requested.

Steve

>Dear Dr. Goldman,
>
>I am delighted to tell you that your manuscript (NMED-LL16198D) has
>been accepted for publication in Nature Medicine. Prior to setting
>your manuscript, we may make minor changes to enhance the lucidity
>of the text, and if necessary to make it conform to the journal's
>style. We therefore ask that you examine the proofs most carefully
>to ensure that we have not inadvertently altered the sense of your
>text in any way.
>
>Acceptance is conditional on the manuscript's not being published
>elsewhere, and on there being no announcement of this work to the
>newspapers, magazines, radio or television before the publication
>date. Nature Medicine, however, does allow the registered
>journalists who receive our press release to have copies of papers a
>week before publication under strict embargo conditions, solely for
>the purpose of publicizing the work in the media. We permit these
>journalists to show papers to independent specialists a few days in
>advance of publication, again under embargo conditions, solely for
>the purpose of commenting on the work described. These restrictions
>are not intended to deter you from presenting your data at academic
>meetings and conferences, but any inquiries from the media about the
>papers not yet scheduled for publication should be referred to us.
>
>About ten days before the paper is published, we shall be
>distributing a press release to news organizations worldwide, which
>may very well include details of your work. We are more than happy
>for your institution or funding agency to prepare its own press
>release, but it must mention the embargo date and Nature Medicine.
>Please contact us for more details.
>
>An order form for reprints will be sent along with the proofs.
>Please note that in most cases, we can only confirm the issue of
>publication a few weeks before we go to press.
>
>I am pleased to say that Nature Publishing Group now allows authors
>to retain copyright to their own papers rather than assigning it to
>the publisher. We do, however, still need your formal written
>permission before we can publish your work. Therefore, if you have
>not already done so, please complete and sign the attached license
>transfer form, and fax it to us at 212-683-5751.

>
>
>Sincerely,
>
>
>
>Stacie Grossman, Ph. D.
>Associate Editor
>Nature Medicine
>
